

Plants for difficult to handle bulk materials

Jepua, Finland YEAR OF CONSTRUCTION 2013

DESCRIPTION

The internal fuel system feeds a BFB with purified waste fuels, inclusive sand paper and biomass.

TECHNICAL DATA

- > bulk material
purified waste fuels | sand paper | biomass
- > silo
33 m³
- > silo diameter
4,000 mm
- > discharge unit
rotor discharge system
- > discharge efficiency
2 x 20 m³/h
- > conveying technique/additional equipment
feeding screws | rotary valves
