

Plants for difficult to handle bulk materials

Glueckstadt, Germany YEAR OF CONSTRUCTION 2009

DESCRIPTION

The internal fuel system feeds a circulating fluidised bed with purified waste fuel (RDF). Additionally about 155,000 tons of paper fibre residues are furnished per anno.

TECHNICAL DATA

- > bulk material
waste fuels (RDF) | paper fibre residues
- > silo
2 x 110 m³ | 49 m³
- > silo diameter
2 x 5,300 mm | 3,800 mm
- > discharge unit
2x rotor discharge systems | rotor discharge system
- > discharge efficiency
4 x 90 m³/h | 1 x 40 m³/h
